SUMMARY

BS Information Technology major in Business Analytics fresh graduate with practical experience in basic web development, system testing, troubleshooting, data handling, and documentation. Experienced as a Public Information Officer (PIO) OJT at the Municipality of Lian, supporting office activities, documentation, digital content, and information-related tasks. Familiar with HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, and Microsoft Excel. Seeking an entry-level position in IT Support, Web Development, Technical Support, Data/Business Analytics, or related IT roles, where I can apply my technical skills, problem-solving abilities, and willingness to learn.

EXPERIENCE

Public Information Officer (PIO) – OJT Municipality of Lian

Feb 2026 - Apr 2026

- Assisted with office documentation, data encoding, and preparation of information materials.
- Supported public information activities, events, and community programs.
- Assisted with photography, videography, and digital content creation.
- Prepared scripts and other materials for public information activities.
- Performed general administrative and technical tasks as assigned.

ACADEMIC PROJECT

Capstone Project – Messiah Café Web-Based Delivery

Jun 2025 - Nov 2025

- Served as the sole developer, handling most of the system’s design, development, testing, and deployment.
- Applied Agile SDLC practices throughout planning, development, testing, and improvement.
- Developed the system using the MERN stack: React.js, Node.js, Express.js, and MongoDB.
- Built modules for customers, admins, cashiers, and delivery riders, including order, delivery, and sales tracking.
- Performed debugging, troubleshooting, database setup, API development, and system integration.
- Used OpenAI Codex, Cursor, and GitHub Copilot to assist with debugging and code improvement.
- Managed server configuration, deployment, and production testing

SKILLS

Technical Skills	Soft Skills
